

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE ER REGULATORY CONTACT RECORD

Date/Time:	November 10, 2004 / 1:00		
Site Contact(s):	Norma Castaneda	Annette Primrose	Bob Davis
Phone:	303 966-4226	303 966-4385	303 966-7026
Regulatory Contact:	Larry Kimmel	Harlen Ainscough	David Kruchek
Phone:	303 312-6659	303 692-3337	303 692 3328
Agency:	EPA	CDPHE	CDPHE

Purpose of Contact: Use of North Firing Range Soils for the Present Landfill Cover

Discussion

At Site closure, the North Firing Range berms will be removed. However, enough soil will be kept to bring this area up to final grade as indicated by the Final Land Configuration. Excess soil will be used as backfill elsewhere on Site. Soils from the east and west berms that are outside the investigation area will be used immediately and will be placed under the Subtitle C Cap.

As agreed to at the ER status meeting on Wednesday, November 10, 2004, soil from the investigation area, primarily the North Firing Range north berm, will be used after characterization. Based on the results, these will be remediated as appropriate with the remainder used for the construction of the Present Landfill Cover.

If soils below Wildlife Refuge Worker can be identified in time, then these will also be placed under the Subtitle C Cap. Otherwise, these soils will be used as backfill and placed where they will be below the final surface. The provisions in the ER RSOP and the CRA, including the ecological risk screen, will be followed to determine where this material can be used for backfill.
